Education

Chitkara University 2024 – 2028
B.Tech in Computer Science and Engineering CGPA: 9.48
Relevant Coursework: Data Structures, Object Oriented Programming, Algorithms

Career Objective

Motivated Computer Science student with a strong interest in programming and problem solving. Seeking opportunities to apply technical skills, learn new technologies and gain practical experience in software development.

Technical Skills

Languages: C, C++, Java (Learning)
Web Technologies: HTML, CSS, JavaScript
Concepts: Data Structures and Algorithms, Object-Oriented Programming
Tools: Visual Studio Code

Projects

To-Do List Application — C++

- Developed a console-based task management system using C++.
- Implemented features like adding, deleting and marking tasks as completed.
- Used vectors and menu-driven programming for task management.

Personal Portfolio Website — HTML, CSS

- Designed and developed a responsive personal portfolio website.
- Showcases profile, skills, projects and contact information.
- Built using HTML and CSS with a clean and structured layout.

Coding Practice

- Regularly practice Data Structures and Algorithms problems.
- Active problem solver on LeetCode.
- Strong understanding of arrays, recursion, sorting and searching algorithms.

Strengths

- Strong problem-solving and logical thinking
- Quick learner and adaptable to new technologies
- Good communication and teamwork skills
- Consistent and disciplined in learning programming
